To Our Customers & Suppliers

Wednesday 2nd April 2020

As the owner of Rowan Precision, I wanted to reach out to all our valued customers and suppliers during these very difficult times that we are all facing. It's really important to stay in touch, and of course to look after our health and that of our loved ones. Alongside this, we all need to do the best we can to keep our businesses going.

We here at Rowan Precision appreciate that the world is in a huge state of flux, and that maintaining a consistent, reliable supply chain is an extremely challenging proposition - but it's a challenge we are happy to take.

So here is the good news! Rowan Precision have well stacked shelves of components for our valued, regular customers - along with a full range of materials for any new enquiries. We are most definitely open for business, and can still provide you with the same high quality manufacturing and technical support that we always have.

We are currently despatching goods to support the Covid-19 crisis from our warehouse every day, and all components are thoroughly cleaned and sterilised before despatch to ensure safety for all our staff and customers.

We will of course continue to monitor and adhere to all government guidelines, and should circumstances change we will update you as quickly as possible.

May I wish you all the best in your unique business sectors, and in staying safe. We look forward to working with you all now, and in the future.

Kind regards

Martin Barker
Managing Director
Rowan Precision Limited
